

Job Title: Innovation Process Specialist

Innovation Process Specialist R&D

We are

invendo medical - a subsidiary of **Ambu**. We are a globally leading developer and manufacturer of innovation single-use endoscopy products in the field of gastroenterology aiming to prevent risks associated with the reprocessing of conventional endoscopes.

In light of the continued expansion of our GI Innovation Center in the Augsburg area we are searching as soon as possible an

Innovation Process Specialist (m/f/d)

Your tasks will comprise

- Optimization of the development process as well as the Design Control procedures within the Product Lifecycle Management System
- Identification of potential improvements through continuous review of processes and implementation of respective measures
- Ensuring compliance of Design Controls with the Quality Management System
- Organization and performance of workshops and trainings for Design Control processes

Your qualification

- Academic degree in a scientific field
- Practical experience with Design Control and development processes in the medical device industry
- Structured, analytical as well detail-oriented approach
- Ability to work both independently as well as in teams
- Strong communication skills in English (both written and verbally)

The offered position is targeted at motivated, disciplined and flexible candidates. You and your ideas can be part of a growing company and you will be able to contribute shaping our future.

We offer

an attractive professional challenge in which you will become an integral element of our Innovation team. The team consists of colleagues at our site in Kissing, close to Augsburg, as well as at Ambu's headquarters in Ballerup, Denmark and in Penang, Malaysia. You will report directly to the Senior Vice President of GI Innovation in Kissing.

You can expect quick decision-making, a motivating and diversified work environment and of course an attractive and appropriate remuneration.

Do you want to grow with our company?

Then we are glad to receive your application with information on your earliest possible start date and remuneration expectations.

invendo medical GmbH, Peterhofstr. 3 b, 86438 Kissing

About Ambu

Since 1937, breakthrough ideas have fuelled our work on bringing efficient healthcare solutions to life. This is what we create within our fields of excellence – Anaesthesia, Patient Monitoring & Diagnostics, and Emergency Care. Millions of patients and healthcare professionals worldwide depend on the functionality and performance of our products. We are dedicated to improve patient safety and determined to advance single-use devices. The manifestations of our efforts range from early inventions like the Ambu Bag™ resuscitator and the legendary BlueSensor™ electrodes to our newest landmark solutions like the Ambu aScope™ – the world's first single-use flexible endoscope. Our commitment to bringing new ideas and superior service to our customers has made Ambu one of the most recognized medical companies in the world. Headquartered near Copenhagen in Denmark, Ambu employs approximately 2,750 people in Europe, North America and the Asia Pacific. For more information, please visit www.ambu.com
