

# Job Title: Senior Clinical Research Specialist

Req ID 1687 - Posted 18/03/2019 - Denmark - R&D - Full-time

## Senior Clinical Research Specialist R&D

Do you have a passion for working with clinical documentation and clinical investigations? Are you able to take responsibility for the strategic direction of how we work to document our medical devices? And do you want to join a successful company in rapid growth? Then we have an exciting job opportunity that may be your next career move...

At Ambu, we develop, produce and sell medical devices, which enable doctors and nurses to save lives and improve patient care. We currently experience massive success and we are looking for an additional Senior Clinical Research Specialist.

We offer a challenging position where you will be an important player in the Clinical Research & Biosafety team placed under Global Innovation. You will participate in securing our ongoing dedication to quality products. You will be part of an effective innovation culture with a tradition for fast completion of projects, which means that there is a visible link between your results and Ambu's growth.

You will join the Clinical Research & Biosafety team consisting of 15 colleagues. 11 based at Ambu's headquarters in Ballerup, Denmark, and 4 affiliated colleagues in Penang, Malaysia. This position could be based in Kissing, Germany or in Ballerup, Denmark. If based in Denmark you should expect to travel to Kissing for 4-5 days each month. If you are based in Denmark, you will refer to the Director of Corporate Clinical Research and Biosafety placed in Ballerup, otherwise you will refer locally to the VP of Gastrointestinal Innovation with a dotted line to Denmark.

### Setting the bar for clinical documentation and clinical investigations

As Senior Clinical Research Specialist, you will join a highly skilled and professional team. You will help us set the right scientific level when implementing international clinical medical device legislation and regulation. This means that you will take responsibility for setting an adequate documentation level. At the same time, you will act as sparring partner in product development projects and improvement projects. You will balance your clinical scientific view with a hands-on approach in the projects as you plan and execute continuous clinical evaluation and post market clinical follow-up activities. You will define clear and operational targets within the clinical documentation area. As clinical specialist, one of your focus areas will be to write and review clinical medical device documentation. You will also act as an expert in regulations and guidelines related to the clinical area. Together with the rest of the team, you will be a "go-to" person for the project members when setting the bar for clinical documentation.

### An expert in the clinical medical device area

To succeed in this position, you need to hold min. 5 years of experience in writing clinical documentation combined with an academic degree or 10 years of experience in medical writing within the medical device field. You also need to be well versed in EU and FDA regulations and guidelines related to the clinical area and have experience in working as the clinical competence in medical device development projects.

As a person, you act as a champion for change and you take the ownership for following through on changes. You are an efficient communicator and you are a good networker as this will help you to succeed in the job. Additionally, you make accurate judgements and decisions and you drive continuous improvement.

Finally, you need to have excellent command of the English language, as this will be your main working language, both in speech and in writing.

### Ambu – a visionary and international workplace where your efforts matter

Ambu is a company that expands rapidly and has ambitious growth targets. We meet these targets through interdisciplinary teamwork between motivated and highly skilled employees. Your contributions and efforts are crucial to our success and by joining us you will get the opportunity to work in an international head office with an informal working environment.

We offer a wide range of professional, social and financial employee benefits in addition to exciting job challenges and continuous professional and personal development.

### Information and deadline

If you are interested in the position, then please apply as soon as possible. Note that we will invite candidates for interviews on a continuous basis so no need to hesitate. This job ad is online until we have found a qualified candidate.

If you have any questions about the position, you can contact Helene Gustafsson, Director of Clinical Research and Biosafety, telephone +45 7225 2000 or Timo Hercegfi, Managing Director, CEO in Kissing, telephone +49 8233 7449826

Your application will be treated with confidentiality.

**About Ambu**

Since 1937, breakthrough ideas have fuelled our work on bringing efficient healthcare solutions to life. This is what we create within our fields of excellence – Anaesthesia, Patient Monitoring & Diagnostics, and Emergency Care. Millions of patients and healthcare professionals worldwide depend on the functionality and performance of our products. We are dedicated to improve patient safety and determined to advance single-use devices. The manifestations of our efforts range from early inventions like the Ambu Bag™ resuscitator and the legendary BlueSensor™ electrodes to our newest landmark solutions like the Ambu aScope™ – the world's first single-use flexible endoscope. Our commitment to bringing new ideas and superior service to our customers has made Ambu one of the most recognized medical companies in the world. Headquartered near Copenhagen in Denmark, Ambu employs approximately 2,750 people in Europe, North America and the Asia Pacific. For more information, please visit [www.ambu.com](http://www.ambu.com)
